

RENEWAL

Adapting Global Urban
Infrastructure for the City of
Tomorrow

What is infrastructure?

What can be considered
“basic”?

Who builds
and manages
infrastructure
?

“the basic systems and services, such
as transport and power supplies, that a country
or organization uses in order to work effectively”

- Cambridge Dictionary

What do we
traditionally
conceive of as
“infrastructure”
?

Who uses
infrastructure?

Why *RENEWAL* ?

urban *RENEWAL*

19th & 20th
centuries

“Revitalization!”

- slum clearance
- “redevelopment”
- gentrification
- displacement

Urban sprawl

Climate
change

Water scarcity and
waste

Infectious
disease

Disruptive
technology

RENEWAL

21st century?

“Revitalization!”

***RENEWAL* :**

History built the city.
Now it's building the future
too.

the highway
marine habitat?

the railroad neighborhood park?

the bus toilet?

the gas station
community
centre?

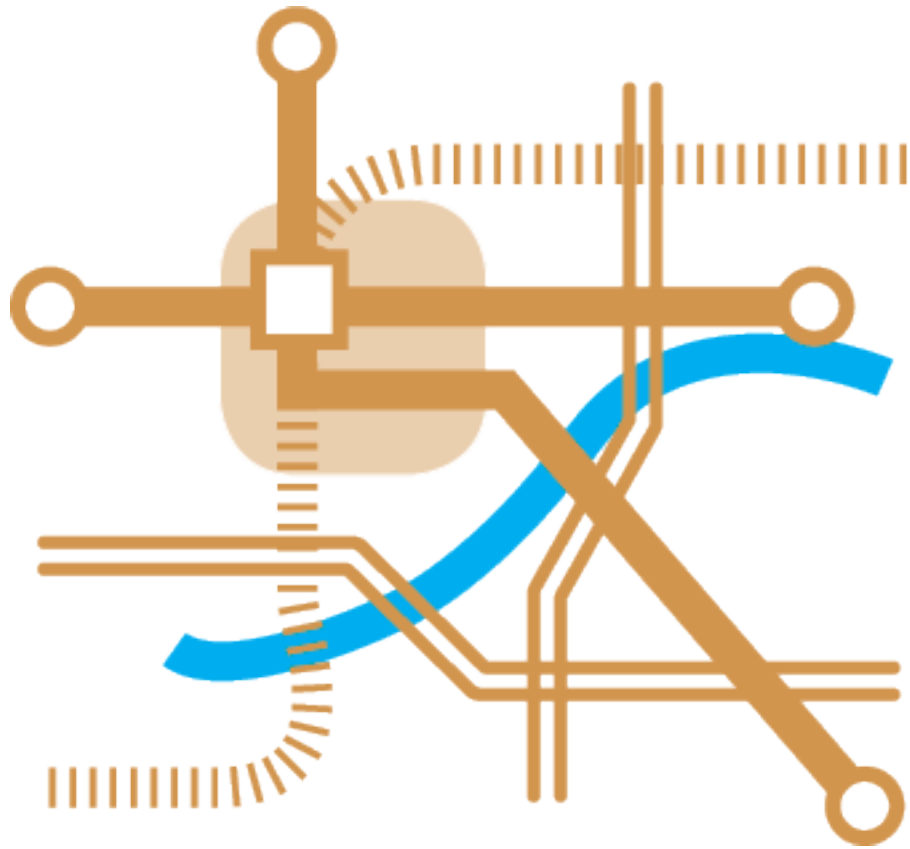

the stadium Museum?

the container workspace?

Thank you!
